Course Goals:

The goals of this course are to 1) cultivate the ability to read and interpret the Old Testament in the Hebrew language ; 2) to relate these translational and interpretive skills to understanding of the whole Bible and the life of discipleship; and 3) through the lens of grammatical and theological interpretation, to demonstrate the connection between these texts and the practice of ministry.

Course Objectives and Requirements:

There are three objectives to this course: first, to gain facility in reading and translating the Hebrew Scriptures; second, to gain a basic understanding of the grammar and syntax of Classical Hebrew; and third, to become familiar with the task of exegesis and the tools of exegesis (concordances, dictionaries, grammars, etc.).

By the end of the semester, the student should be able to translate narrative texts from the Hebrew Bible with the use of a dictionary and be able to make exegetical and textual observations about select passages from the Hebrew Bible.

Regular attendance at all class meetings and timely submission of all class assignments is a requirement.

All students are expected to prepare a notebook, with all your relevant translation homework and other notes that I may provide from time to time. The notebook will include all assigned portions from Pratico as well as selected readings and exegetical notes. This notebook will be due the last day of class. There will also be quizzes on grammar, vocabulary, and translation.

Grading:

Homework and notebook:	25%
Exegesis:	25%
Sermon:	25%
